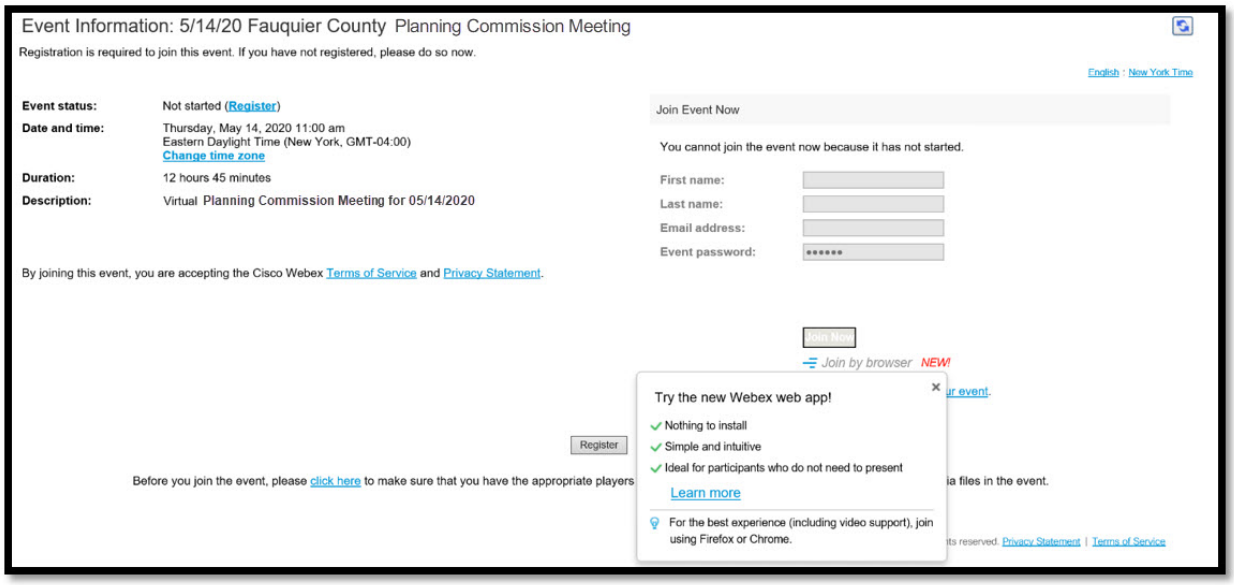
How to Join the Virtual Meeting

Using one of the recommended browsers, Firefox or Chrome, go to https://www.fauquiercounty.gov/PCVirtualMeeting and click on the "Register to Speak" link to pre-register and to receive an email with the Planning Commission Virtual Meeting WebEx Event invitation.



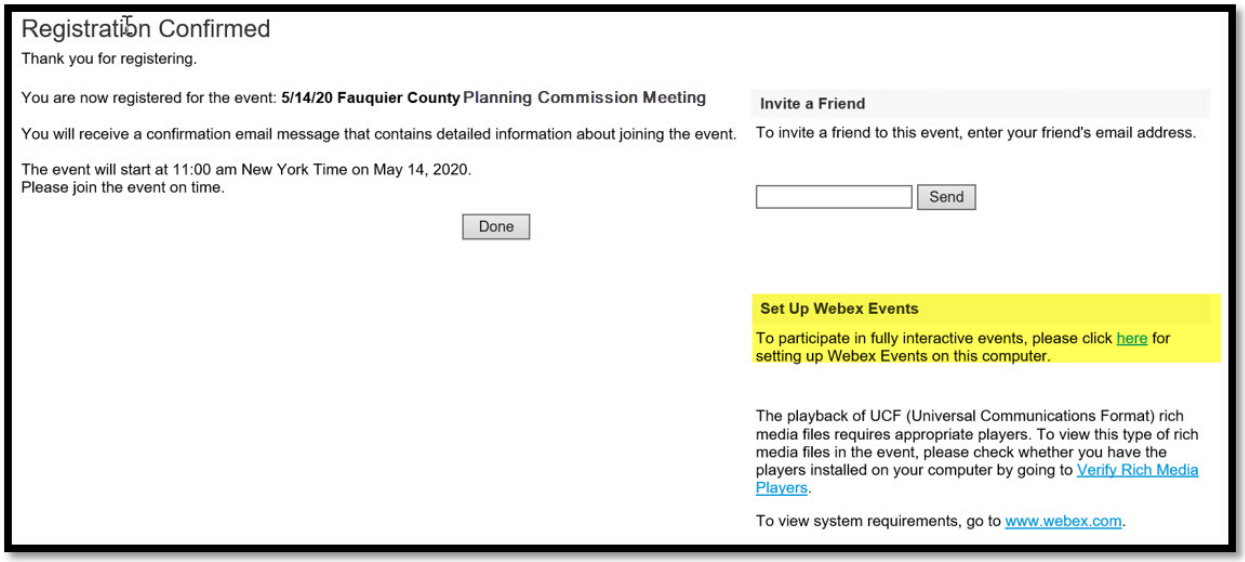
After receiving the WebEx Event invitation, if you would like to connect prior to the meeting start time, you can register by clicking Register in the top left corner in Event Status.

Citizens joining the WebEx to speak need to join 45 minutes prior to the start of the meeting for sound checks and further instructions.

Enter your information including email address and click "Submit".

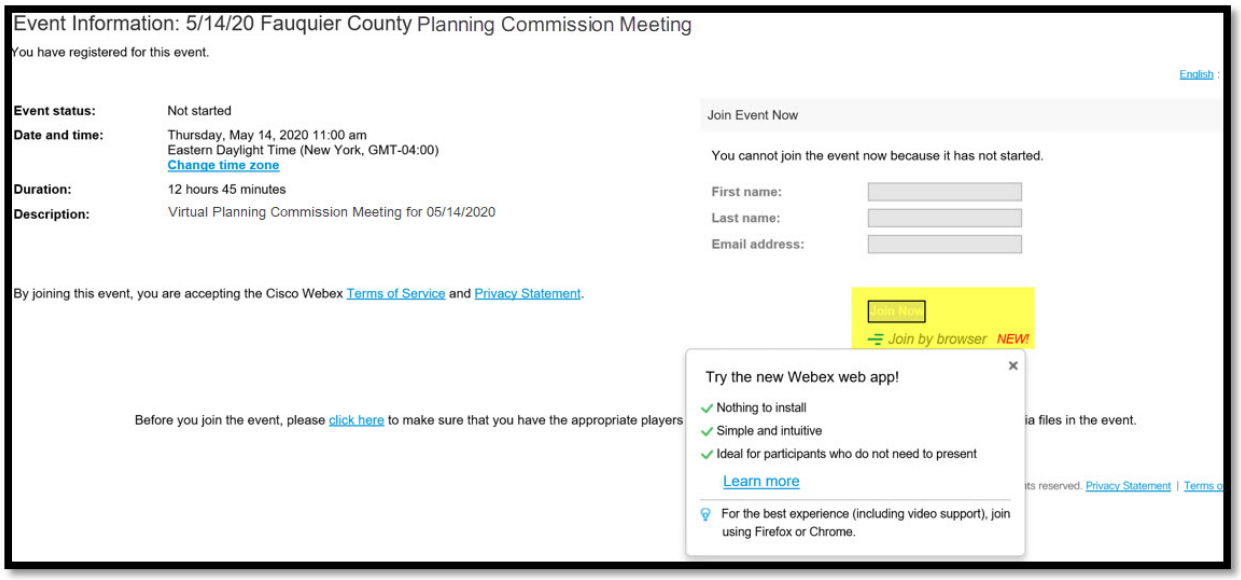
Upon clicking "Submit," you will be taken to the confirmation page, which provides an opportunity to

setup your computer for the WebEx Event in advance.



If you click the "please click here" link, the WebEx program will either pop-up an installer OR give you an opportunity for other types of installation. This is a personal choice item, ultimately any of the options will work for connecting to the WebEx Meeting application. There is an alternative to installing software by waiting for the confirmation email.

You will receive the confirmation email when the Meeting Moderator approves your registration. When clicking the green "Join event" button, your default browser will open a WebEx Event Information webpage, this page gives you an option to Join by browser and nothing will install to your personal computer.



For additional installation options, such as the Webex Web App, please use the Cisco Webex Help Center.
