Subject: Construction of Lattice Tower

I have read the applicants (James R. & Betty L. Mills, Trustees) SE02-L-30 proposal for a wireless tower to be erected on Lucky Hill Rd. Lee District.

I have only one comment. It was my understanding that any future towers in the County would have a clause stating that Public Safety would have free access to the tower if they requested it. I cannot find that clause in this application unless I overlooked it some where. Is my understanding correct?
