

SURFACE WATER RUNOFF IMPOUNDMENT FOR WATER QUALITY WP-7

Important Facts

Tax Credit

The Tax Credit rate is 25% of the total eligible cost not to exceed \$17,500.00. If a cooperator receives cost-share, only the cooperator's share of the project is used to determine the tax credit.

Surface Water Runoff Impoundment for Water Quality is a structure that will impound surface water runoff and allow sediment and nutrients to settle out. The purpose is to improve water quality by impounding surface water and allowing sediments and nutrients to settle out.

- Tax credit is authorized:
 - For earth moving to construct or develop impoundment.
 - Vegetation establishment to protect structure from eroding.
 - Fencing to protect the structure from livestock.
 - For engineering and design assistance.
- The structure shall be maintained for a minimum of 10 years following the calendar year of installation. By accepting credit, the recipient agrees to maintain the practice for the specified life. This practice is subject to spot check by the District throughout the practice life and failure to comply may result in forfeiture of credit.
