

PLASTICULTURE IRRIGATION WATER RECYCLING SYSTEM WQ-7

Important Facts

Rate:

The tax credit rate is 25% of the total eligible cost not to exceed \$17,500.00 If a cooperator received cost share, only the cooperator's share of the project is used to determine the tax credit.

A system designed to collect and reuse irrigation water from fields involved in the production of crops under plasticulture methods.

To improve water quality by collecting and reusing nutrient and sediment laden irrigation water on crops grown by plasticulture methods.

Policies

Tax Credit is authorized:

- For the construction of reservoirs and/or irrigation collection pits.
- For pipe and installation to make use of new facility
- For pumping equipment to make use of new facility.
- For establishing vegetation to protect the structure from erosion.

The structure shall be maintained for a minimum of 10 years following the calendar year of installation. By accepting credit, the recipient agrees to maintain the practice for the specified life.

- Volume of water treated must be calculated.
