PLEASE READ CAREFULLY

The County may only issue a building permit to properly licensed contractors or to those that are exempt from the Commonwealth's requirements for contractors. Certain exceptions to licensing requirements are available under Section 54.1-1101 of the Code of Virginia. Property owners are eligible for exceptions under specific circumstances, including building their primary residence and related accessory structures.

The Code requires that a contractor be properly licensed before he may bid or undertake contracting work of \$1,000 or more. Specifically, a:

- Class A contractor's license is required for any job valued at more than \$120,000; a
- Class B contractor's license is required for any job valued at \$10,000 or more but less than \$120,000; and a
- Class C contractor's license is required for any job valued at more than \$1,000 but less than \$10,000.

Identify on the reverse side of this form each contractor who will be working on the job.

If a property owner secures a building permit under the exception, and subsequently hires contractors to work on the project, those contractors must meet the requirements listed above and the property owner is legally responsible for assuring the licensing requirements are met. Failure to do so constitutes the commission of a Class 1 misdemeanor by both the property owner and the contractor, and may expose the property owner to prosecution as well as other legal risks, particularly if problems with construction occur. Also, in such cases the County cannot hold individual contractors responsible for issues identified during ongoing inspections; rather it is the property owner, as permit holder, who is responsible.
