

FAUQUIER

AGRICULTURE

2019 - 2020

**Fauquier County
Farm Product
And Services
Directory**

Hello!

The Agricultural Development Department is happy to provide a growing catalog of farms offering products and services for direct sale.

This Directory is evidence of the diversity of agriculture in Fauquier County. Enclosed you will find items from Fauquier's beautiful and productive farms. In the expanding **Custom Service** directory you will find numerous farmers offering pasture clipping, haymaking and other services. Hay buyers will find local producers in the **Hay and Straw** directory. Looking for cattle to graze your pastures? Look in the **Cattle** directory for cattle near you. Find fresh, locally grown fruits and vegetables on the farm or at one of our many farmers markets.

The most current Directory information can be found online at www.FauquierAg.com. This site is updated and promoted frequently. We hope the Directory is helpful.

The Fauquier County Agricultural Development Department was established in 1998 to encourage economic growth of the agricultural industry through a variety of projects aimed at retaining and developing new markets and public education.

The cover features the Fauquier Agriculture's "Home Grown" logo.

This logo identifies locally produced farm products. Look for the image throughout this directory for participating farms and in your local grocery store or farmers market. Help support Fauquier agriculture.

Thank you!

A handwritten signature in black ink that reads "Ray Pickering".

Ray Pickering
Agricultural Development Officer

*If you would like your farm listed in future issues,
please go online to www.fauquierag.com and click on
"Be Added to our Farm Product Directory" or please contact:*

Please contact producers by telephone to arrange visits to the farm. Farm operations are located in Fauquier County although some farms list out of county contact information. The developers of this Directory do not have the capacity to independently verify all of the information presented here. Contributors to the Directory are responsible for its content.

Please contact a specific farm to verify organic certification or standard certification.

FAUQUIER COUNTY PURCHASE OF DEVELOPMENT RIGHTS PROGRAM

In 2002, Fauquier County approved and implemented a Purchase of Development Rights (PDR) Program to help implement the County Comprehensive Plan goal of permanently preserving productive agricultural land. Focusing on working farms, the program accepts applications from farm owners who wish to sell the residential development rights on their land. A permanent conservation easement is placed on the property in exchange for compensation from the county.

As of May, 2019, a total of 13,177 acres have been approved for the PDR Program by the Fauquier County Board of Supervisors. Fauquier County leads the Commonwealth in acres of preserved farmland. The program is managed by the Agricultural Development Department. For more information on the PDR Program, please contact Ray Pickering at (540)422-8280 or visit www.FauquierAg.com.

Fauquier County AG Production Statistics

2017 U.S. Census of Agriculture:

Cash Receipts: \$54,812,000

Acres in Farms: 216,666

No. of Farms: 1,154

Average Farm Size: 188 acres
