A Message from Dr. Kim Blosser:

“We all take different paths in life. Community college was where I found my focus, and like so many other students, it was where I learned the skills needed to be successful in my field. In addition to my own personal experience, I have seen first-hand the difference community colleges make in students’ lives, within families, and within our communities. Whether you are seeking an affordable start toward a bachelor’s degree or the technical skills to advance your career, LFCC stands ready to help you achieve your goals and enrich your life.”

– Dr. Kim Blosser, LFCC President
