

FAUQUIER COUNTY PARKS & RECREATION  
POLICY

---

TITLE: Non-Parks and Recreation Field Support

FILE #: G

DATE PROPOSED: 3/7/90

DATE APPROVED/REVISED: 9/7/94, 6/5/02, 4/4/07

---

PURPOSE: To establish criteria for providing support to non-Parks and Recreation maintained sports fields in the county and assure that the sanitation needs of Fauquier County youth participating in youth sports programs are met with adequate facilities.

A. Toilets

1. Parks and Recreation will provide for toilet facilities at all Recreation fields utilized by recognized youth leagues under the following conditions:
  - a. Written request from the league must be received 30 days in advance of needed facilities. Organized sports leagues will provide Parks and Recreation the season schedule along with the written request. Extension of the season for any reason must be submitted to and approved by Parks and Recreation prior to that extension.
  - b. One portable toilet will be provided for every two fields at a site. At least one toilet per site should be handicapped accessible. For locations with multiple fields, the number of toilets will be rounded down, e.g. 3 fields will receive 1 portable toilet and 5 fields will receive 2 portable toilets.
  - c. If cash payments are being made by the League to use the field, other than for light usage, the League shall not be eligible for portable toilets under this policy.
2. Parks and Recreation will be responsible through its vendor for cleaning and maintaining these units on a weekly basis. Users will be responsible for reimbursement of any use not authorized by Parks and Recreation.
3. Staff is hereby authorized to make a determination if the projected field usage justifies the placement of a portable toilet.
