

Elementary School Age Programs

Turtle Without a Home by Sharon Gaston

What: Presentation of an anti-litter story, followed by creating a turtle from recycled content

Who: Ideal for preschool-1st grade

Where: In classroom

How long: Program lasts approximately 35-40 minutes

The Wartville Wizard by Don Madden

What: Presentation of an anti-litter story, followed by a discussion about recycling

Who: Ideal for K-2nd grade

Where: In classroom or larger meeting area at the school

How Long: Program lasts approximately 40-45 minutes

Incredible Edible Landfill

What: The creation of an edible landfill that teaches the many layers of a modern day landfill and how we can use recycling to keep it from filling up. Followed by a yummy snack.

Who: Ideal for 1st-4th grades

Where: In the classroom

How Long: Program lasts about 15-20 minutes

The Coolest Can

What: Learn how the aluminum can is made and participate in can collection and team building skills. Then close the loop on recycling with a show and tell.

Who: Ideal for 1st-5th grades

Where: In the classroom

How Long: Program lasts about 45-50 minutes

The Nature Ranger Rabbit, "Ed E. Earth"

What: A friendly, real life size rabbit can greet students and teachers at the beginning of their school day. Ed will remind students to reduce, reuse and recycle.

Who: Ideal for preschool-2nd

Where: In the classroom

How Long: Program lasts 10 minutes

"Rigsby's Rally" Puppet Show

What: Entertaining puppet show with park animals telling the story of how litter hurts our environment

Who: Ideal for preschool-2nd grade

Where: In the classroom or larger meeting area

How Long: Program lasts about 25-30 minutes
