

Appliances (White Goods)

Accepted at the following location:

Corral Farm (Bulk Recycling Area)
CLOSED on Sundays

How to Prepare for Recycling:

- For appliances containing Freon*, such as a refrigerator, a freezer, a dehumidifier, or an air-conditioner, please place in collection area for processing. Some items have [processing fees](#).
- Please remove doors and food.
- Appliances such as stoves may be placed directly in the scrap metal pile.
- Please recycle small appliances such as microwaves, toasters, blenders, etc. with electronics.

Why Recycle?

*Freon is a compound that impacts the ozone layer of the atmosphere. Each Freon containing item placed in the waste stream is checked and any remaining Freon is recycled. Afterwards, the appliance can be recycled as scrap metal.
