

# Batteries

Household and Rechargeable Batteries  
Vehicle Batteries (accepted at Corral Farm only)

## Accepted at the following sites:

Catlett  
Corral Farm  
Markham  
Marshall  
Morrisville  
New Baltimore  
Remington

## How to prepare for recycling:

**Battery contact points need to be taped.**

See site attendant for specific location to place batteries.

Batteries include the following:

Alkaline batteries

Rechargeable batteries

Vehicle batteries  
Only at Corral Farm

Lithium batteries used in cameras, cell phones, hearing aids

## Why Recycle?

Recycling batteries keeps heavy metals out of landfills and the air. Recycling saves resources because recovered plastic and metals can be used to make new batteries. (US Environmental Protection Agency—EPA)
