

2024

Employee of the  
Month

September

Congratulations to Jonathan Bankston for being named Employee of the Month for September 2024. He is being recognized for his strong project management on recent requirements to update the Image Trend platform with the new EMS reporting requirements. His work on that project placed Fauquier County as the first county in the Commonwealth of Virginia to implement this enhanced platform.

At the beginning of 2024, there was a large scale update to the reporting requirements in the Image Trend platform. This was a nationwide change in the reporting for EMS incidents. Jonathan took the initiative to complete a comprehensive update to Fauquier County's Image Trend platform, tailoring it to the unique needs of our county. The update involved excellent project management skills which included updates to data and monitoring and resolving any issues in advance for a smooth transition to the updated system.

This level of commitment is to be commended. He is one of the reasons that Fauquier County is a great place to work. We are thankful for the example set for his fellow employees.
